Professional Summary

I gained valuable experience in UI development during my internship, where I used my technical skills on real projects. Now, I'm looking for a new opportunity at a leading company where I can improve my skills, work on challenging tasks, and keep up with the latest IT trends.

Technical skills

- HTML
- CSS
- Bootstrap
- JavaScript
- React.js
- Canva
- Python
- MySQL
- Figma
- SEO
- WordPress
- Responsive Design

Internship Experience

AnkHub Technology Services

Aug 2023 – Nov 2023

UI Developer

- Worked on various websites using HTML, CSS, and Bootstrap.
- Created a responsive design with media queries and fluid grids.
- Used media queries to adjust layout and styling based on screen size and implemented fluid grids and images to maintain the website's layout and visual integrity across different devices

Projects

Tour and Travels Website

- Developed a tour and travels website on WordPress with the WP Travel plugin, emphasizing a user-friendly booking system. By customizing travel packages, destinations, and activities, and offering various trip types, I enhanced the user experience, diversified offerings, and boosted bookings, leading to higher customer satisfaction.

Password Generator App

- Developed a Password Generator using React that enables users to customize passwords by selecting specific character options, including uppercase and lowercase letters, numbers, and symbols. The application includes functionality to copy the generated password to the clipboard and features form validation with toast notifications for providing success and error feedback.

Education

B.E. in Electrical Engineering

CGPA: 8.47

Aug 2019 - June 2023

University: Rastrasant Tukadoji Maharaj Nagpur, University
